

Raising a Thinking Child uses the **I-CAN-PROBLEM-SOLVE** approach.

Through this approach, children learn ways to resolve their own common conflicts and challenges.

Raising a Thinking Child

Help your kids get along with family and friends by teaching them valuable problem-solving skills!

A program for parents and caregivers of 4-7 year-olds

UW
Extension
University of Wisconsin-Extension

Are you the parent of a 4-7 year-old?

Are you looking for new ways to handle...

- ◆ Temper tantrums;
- ◆ Conflicts with siblings, friends, or classmates;
- ◆ Interrupting or impulsive behavior;
- ◆ Listening problems?

If so, **Raising a Thinking Child** may be just right for you!

This series will help you guide your child to handle common issues through communication and problem-solving.

Raising a Thinking Child is...

- ◆ **Fun**
- ◆ **Effective**
- ◆ **Easy to learn**

Did you know...

Children as young as four can learn to think for themselves in ways most of us never thought possible?

Through the evidence-based **Raising a Thinking Child** program, parents teach young children to:

- ◆ Solve problems and resolve daily conflicts
- ◆ Think about consequences and explore positive solutions
- ◆ Consider the feelings of others
- ◆ Manage common challenges independently

Raising A Thinking Child

can help shy children become more assertive. It can help impulsive children cope with frustration when things don't go their way.

These skills can prevent and reduce behaviors that predict later problems such as violence, substance abuse, and depression.

This eight-session parent education series uses fun, interactive lessons to help parents teach their kids valuable skills that can last a lifetime!
