I have learned a great deal from watching my older brothers over the years. They have a lot of good advice to offer. My Steer's name is Gunsmoke and he is a Purebred Hereford who really loves his treats. I enjoy working with the animals on our family farm, but I also really love engines and discovering out how things work. I've got many hours logged in to tinkering on things on our farm and to my family's amazement have managed to resurrect what most would consider to be a lost cause. I would like to thank all the folks who came out to support us tonight, the program is a success because of you.

My previous animals have done really well in the carcass judging and I am proud to be raising quality meat.
